Spanish service now indexing CMAJ

Articles in CMAJ, which are already abstracted and indexed by MEDLINE/PubMed and more than 30 key English-language scientific databases, now have a much broader reach.

This happened after CMAJ was added to the list of journals tracked by one of the world's major indexing services for Spanish and Portuguese physicians and medical scientists.

Sociedad Iberoamericana de Información Científica (www.siicsalud.com), based in Buenos Aires, serves physicians throughout South America. It added CMAJ to its list earlier this year. — CMAJ
